

STOTT PILATES®

Injuries & Special Populations

The STOTT PILATES® Injuries & Special Populations course develops the skills to address a broad range of physical challenges among clients. Learn to customize workouts to address weaknesses, health conditions, postural problems or injuries (but not to diagnose specific injuries).

the next step

Interested in new subject matter or want to become a specialist? Consider Workshops and Specialty Tracks.

Instructors Learn:

- Approaches to rehabilitating an injured musculoskeletal system
- Anatomy and biomechanics, dysfunctions, pathologies, and exercise modifications in the lumbo-pelvic, cervical, upper quadrant, shoulder, elbow, wrist, hip, knee, ankle and foot regions
- Pregnancy, fibromyalgia and other special conditions plus workout design
- Appropriate modification of Matwork, Reformer, Cadillac, Stability Chair™ and Barrel exercises including variations with light equipment.
